6. Summary of Project Challenges. (Space will expand to fit y	our text.)				
This project involved close coordination between the Village, which owns the property draining to the project site and the site itself, and Blackhawk Country Club, which leases the land from the Village for golf course use. The deliberations and meetings necessary to achieve a functional design that satisfies the aesthetic desires of the Country Club ended up delaying the project. Fortunately DNR Staff assisted with extending the grant period.
